Running a restaurant means managing chaos every single day — staffing, inventory, customer reviews, and marketing all at once. AI doesn't replace your team. It makes your whole operation run smoother.

The Biggest Time-Wasters in Your Business

- | | |
|---|--|
| • Responding to online reviews takes time you don't have | • Menu descriptions and specials are hard to keep fresh online |
| • Inconsistent social media means fewer new customers finding you | • Customer feedback isn't tracked or acted on systematically |
| • Staff no-shows and scheduling headaches disrupt service | • Phone orders and reservation calls pull staff away during rush |
-

Where AI Makes the Biggest Impact

Review Response AI

Auto-draft personalized responses to Google and Yelp reviews — positive

Reservation Chatbot

Handle reservation requests and common questions via website or

Social Media & Specials

and negative — in your restaurant's voice.	Facebook Messenger without tying up your host.	AI creates weekly posts, daily specials content, and seasonal promotions ready to publish in minutes.
--	--	---

Menu Copywriting

AI rewrites your menu descriptions to be more enticing, consistent, and optimized for online ordering platforms.

Staff Communication

AI-drafted shift reminders, policy updates, and training guides sent via text or email to your team.

Customer Feedback Loop

Automated post-visit survey texts that collect feedback and flag unhappy guests before they write a bad review.

Quick Wins — Start Here

- | | |
|--|--|
| <ul style="list-style-type: none"> • Set up a free Google review response template in ChatGPT — respond to every review in 2 minutes flat • Create a month of Instagram and Facebook content for your restaurant using AI in one afternoon • Add a reservation/FAQ chatbot to your Google Business or Facebook page | <ul style="list-style-type: none"> • Rewrite your top 10 menu items using AI to make them more appealing for online ordering • Build an automated post-visit text asking for a Google review — sent 2 hours after the meal • Use AI to draft your weekly staff schedule reminder and policy reminders |
|--|--|
